

Hello and Welcome to your April PRE-OP BIRDS e-bulletin

RECRUITMENT

Recruitment during March has been lower than expected with only **4** participants recruited this month

The new total is therefore **58**

Please keep up the hard work as we still need another **22** participants to reach target.

We have now submitted the formal contract variation request to the study funder, NIHR, to extend the recruitment end date and we will keep everyone informed once we receive confirmation that this has been approved.

REGULAR REMINDERS

- Could you please ensure your consent forms and eligibility checklists are faxed to the number below, as soon as possible after these forms have been completed:
0191 580 4787
- We would be grateful if MACRO could be updated in a timely fashion, as soon as possible after patient visits.
- Screening logs to be faxed through on/about 20th of the month

THANK YOU
for all your help

Best Wishes from your Pre-Op Birds Study team
Please don't hesitate to contact us if you have any queries
