

# **Modern borders and the prehistory of northwest Europe**

# *The prehistory of Britain and Ireland in their European context*

Richard Bradley (University of Reading)  
Colin Haselgrove (University of Leicester)  
Marc Vander Linden (University of Leicester)  
Leo Webley (University of Reading)

Funded by the Leverhulme Trust

# Hindrances to cross-border research in Europe

- Theoretical approaches stressing local sequences
- National/regional organisation of heritage administration
- Language
- Differing classifications, terminologies, chronological schemes

# Project database

# Data collection as at December 2010

# LBA/IA sites in the Netherlands

## Background: palaeogeography *c* 500 BC

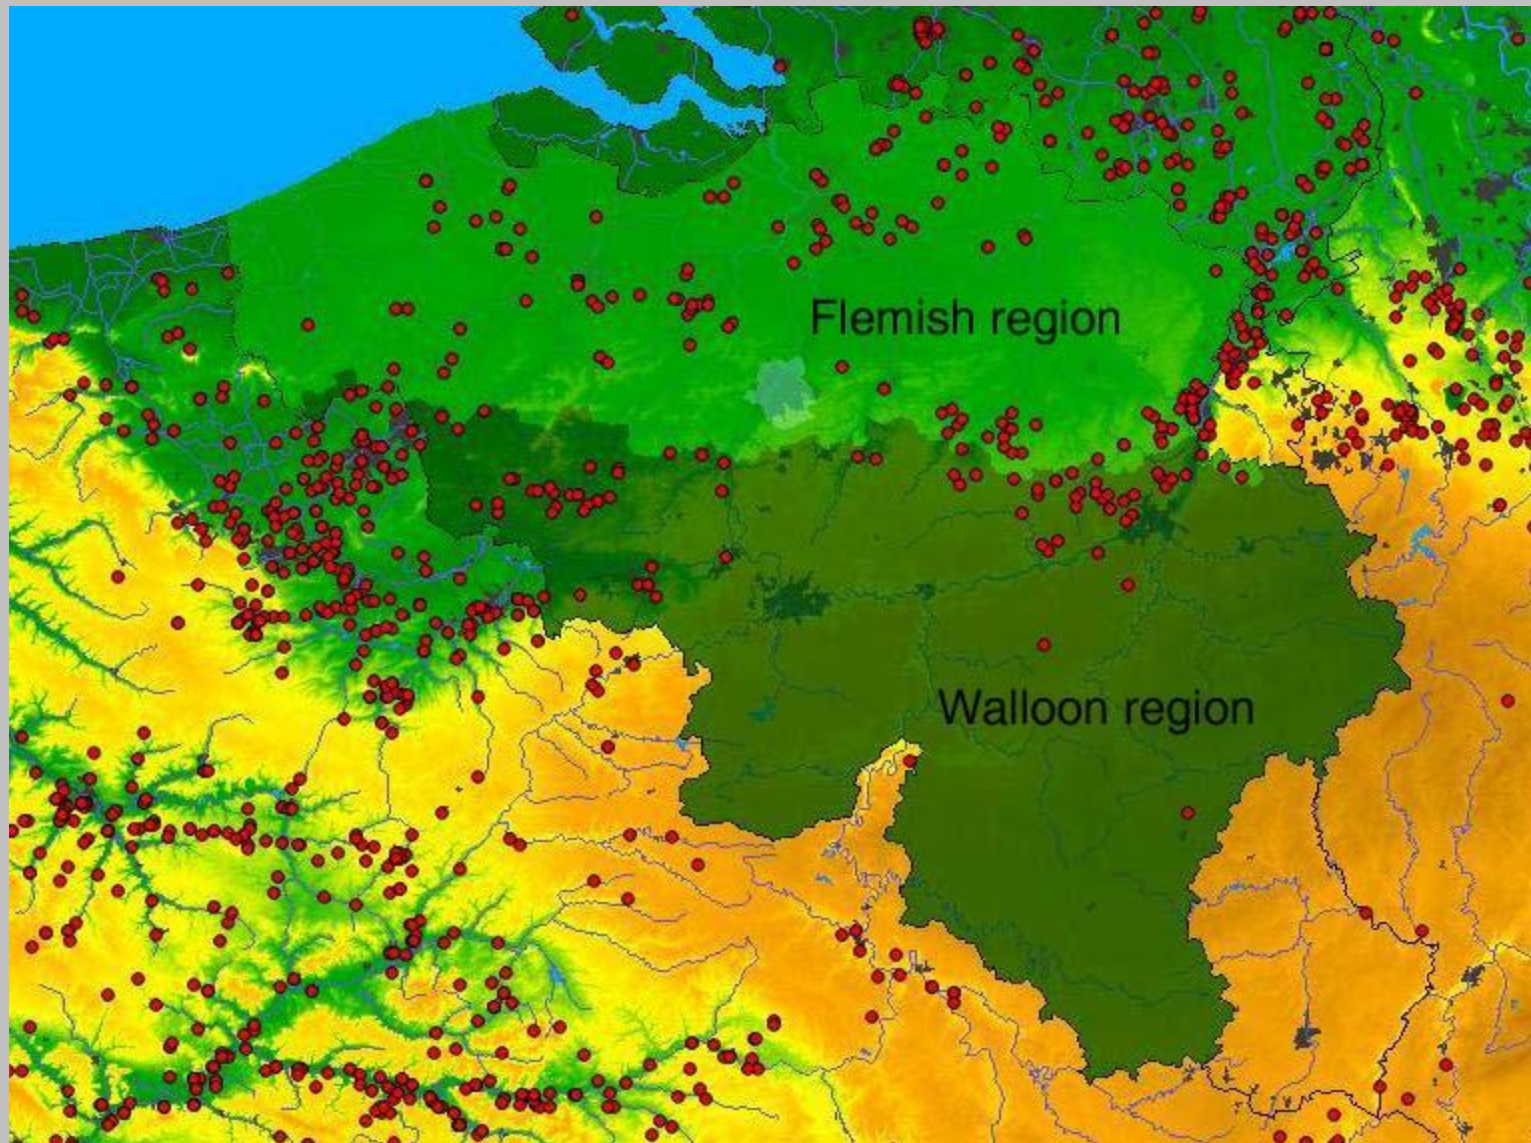

(source: Rijksdienst voor  
het Cultureel Erfgoed)

## Concentrations of excavation occur where:

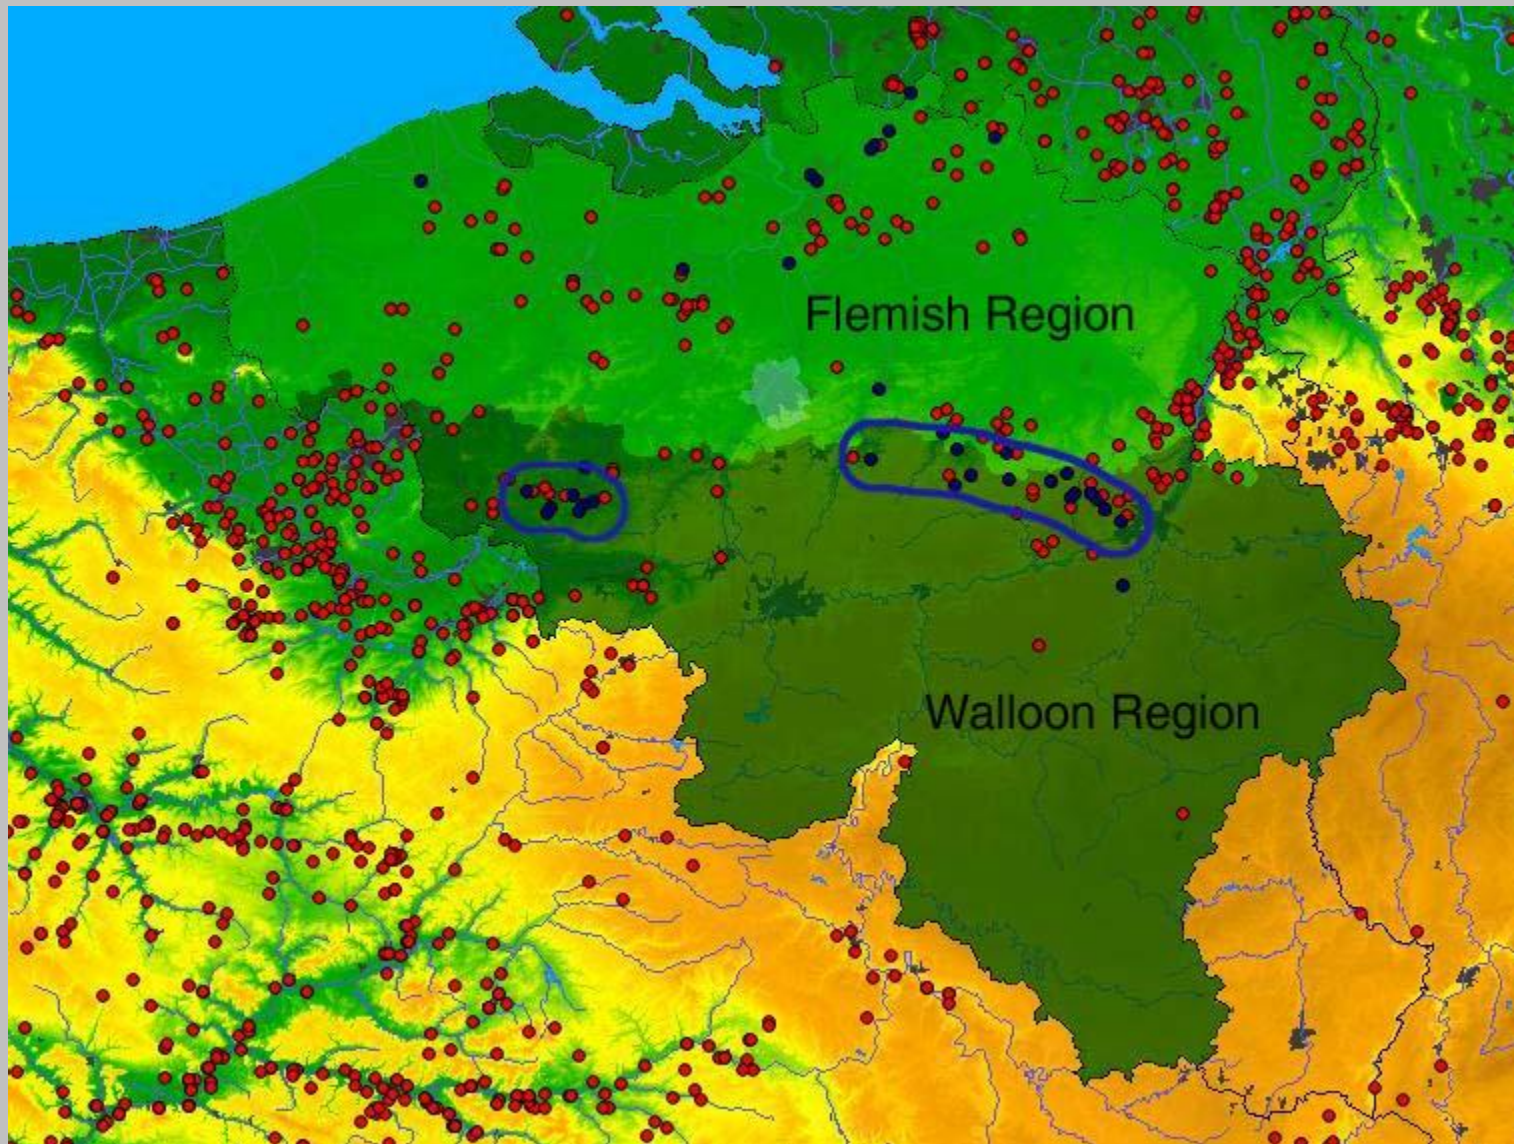

- The developer funding principle is firmly anchored in law
- Developers required to pay for an intrusive evaluation
- Developers required to pay for post-excavation work and a report
- The organisations carrying out fieldwork have sufficient capacity
