Re: Newcastle 85+ study – 10 year follow up (phase 5)

Further to our previous letter of xxxx informing you that we are undertaking a 10 year follow up of this cohort, we have now commenced recruitment.

..... (participants' name), D.O.B. has been identified as participating in all 4 phases of the study, the last phase being in 2011.

In 2011 they were registered with your practice. As they have been actively involved in all phases so far we would like to invite them to participate in phase 5. I am writing to confirm their contact details with you and seek clarity that they are not recently deceased.

We currently hold the contact details below:

Address.....
.....
.....

Telephone:

Please can you confirm that the details are correct? I enclose a prepaid envelope and a detachable section at the end of this letter. If I do not hear from you, I'll presume that the details are correct.

Yours sincerely

Dr Rachel Duncan
On behalf of the Newcastle 85+ Study Team
