

AWFUL CHANGES.  
MAN FOUND ONLY IN A FOSSIL STATE—REAPPEARANCE OF ICHTHYOSAURA.

*A Lecture.*—"You will at once perceive," continued PROFESSOR ICHTHYOSAURUS, "that the skull before us belonged to some of the lower order of animals; the teeth are very insignificant, the power of the jaws trifling, and altogether it seems wonderful how the creature could have procured food."

Henry de la Bèche, *Awful Changes* (1830)

Professor **Mark Williams**

(University of Leicester)

23 October 2019

1-2pm | Old Library 2.20

Workshop

**The Utility of the  
Anthropocene concept**

3-4pm | Armstrong 1.49

Lecture

**Mitigating the impacts of a  
human reconfigured  
biosphere**

**Newcastle  
University**

**Humanities  
Research Institute**
