13:00 – 16:20

Patient and Public Involvement in Neurotechnologies

WORKSHOP

Come join us for a hybrid workshop to discuss what “success” in PPI for neurotechnologies looks like and where to find the best examples to learn from.

We will hear from patients, clinicians, researchers, and regulators. We will also have a discussion of case studies and a lived experience panel.

Join us to influence the development of PPI strategies for neurotechnologies in the UK.

With talks by:

- . Rebecca Woodcock | NIHR MindTech MedTech Co-Operative
- . Michael Hart | St George’s University of London
- . Chris Gibbs | CNTW NHS Foundation Trust, Newcastle
- . Muki Haklay | University College London

This workshop will be satellite event of a Network+ meeting.
