

# Finger Puppets

As well as developing two-handed play this activity gives the helper hand practice in:

*Thumb/finger grasping*

*Holding*

*Releasing*

*Wrist and forearm movements*

**You will need:** glue, scissors, coloured pens or pencils, paper, finger puppet template (see over).

1. Colour in the template in any colours you want.

2. Cut around the dotted line – take care with the scissors!

3. Turn the piece of card over so that the picture is face down on the table. Glue around the edges except the bottom edges where your finger needs to go!

4. Turn the paper over and press the glued edges together.

5. When the glue has dried, pop the puppet on your finger and bring it to life.

**See how many puppets you can fit on your hands at once!**
