Games Fun 'n' Games

Pop-Up Pirate

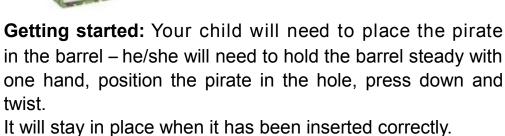

As well as developing two-handed play this game gives the helper hand practice in:

Thumb/finger grasping

Holding

Reaching

Releasing

The aim of the game is to insert as many plastic swords as possible into the barrel before the pirate pops out.

To insert a sword, your child should hold the barrel steady with one hand and push the sword in with the other hand, holding it between his/her finger and thumb.

Your child can switch which hand he/she uses to place the sword in the barrel.

If your child struggles to pick the swords directly off the table with his/her helper hand, he/she can use the dominant hand to pick them up and pass them to the helper side.

Encourage your child to keep trying to pick up the swords directly from the table top.

We hope your child has lots of fun with this game!
