

WING UK: CAREER TRANSITION: FROM OIL AND GAS TO GEOTHERMAL

Join us on **Wednesday 29th September at 16:00 (BST)** for an online careers panel discussion focussing on the transition from an oil and gas career to a geothermal energy career.

Submit your geothermal career questions upon registration to be presented to the panel

Mark Ireland

Mark is a Lecturer in Energy Geosciences at Newcastle University. He has extensive experience of the interpretation of geophysical data and over 8 years' experience in the upstream oil and gas industry with bp. In 2019 he was appointed to his current role in geoenergy, with applications for geothermal resources.

Niall McCormack

Niall McCormack is a geologist with over 20 years of experience in energy and resources globally. Niall has an undergrad and Ph.D. in Geology from Trinity College Dublin. He is Chief Executive and Managing Director of Causeway Geothermal Ltd.

Kate Hayo

Kate started work as a climate scientist for the United States Geologic Survey and now works as an interpretation geophysicist for Schlumberger on geothermal exploration projects. Kate is also a member of the SPE London Net Zero committee and leads the energy transition special interest group within Schlumberger.

Dr Ellie MacInnes

Ellie MacInnes is the Head of Geothermal Science at CGG. She has a PhD in Structural Geology and 18 years' experience working in the Energy industry. Prior to joining CGG she worked in several oil and gas companies where she specialized in Global Exploration and New Ventures.

Robbie Bilsland

Robbie is a Wellsite Drilling Engineer for Eden Geothermal Ltd. He spent the past 5 years working as a Field Engineer on drilling rigs across Europe and the Middle East with Schlumberger and holds an MSc in Petroleum Engineering from Heriot Watt University.
