Changing Enquiries

Hollie Johnson | Technical Research Assistant | June 2016

Introduction

This guide covers how to switch between Enquiry 1: Great Fire of Newcastle and Gateshead and Enquiry 2: Ancient Mesopotamia.

Adding a new enquiry will follow a similar process, however it is important to remember that ALL media resources used (video files, tabletop images, dictionary sounds etc.) must be uploaded to the relevant location. In addition, any tabletop activities must be configured in order to achieve the required customisation. Details on how to do this are available in the full technical document.

For the purposes of this document, we will demonstrate changing from Enquiry 1: Great Fire of Newcastle and Gateshead to Enquiry 2: Ancient Mesopotamia and back.

All of the steps below should be completed before launching any of the applications.

Changing the Video Script

From Enquiry 1 to Enquiry 2

1. On the PC, navigate to **VLC/ConsoleApplication1/bin/Debug/Scripts**
2. Rename **playlist** to **playlistenq1**.
3. Rename **playlistenq2** to **playlist**.
4. Close the folder.

From Enquiry 2 to Enquiry 1

1. On the PC, navigate to **VLC/ConsoleApplication1/bin/Debug/Scripts**
2. Rename **playlist** to **playlistenq2**.
3. Rename **playlistenq1** to **playlist**.
4. Close the folder.

Customising the Dictionary

From Enquiry 1 to Enquiry 2

1. On the tabletop, navigate to
C/Users/Table/Documents/Dictionary/Dictionary/bin/Debug/Scripts
2. Rename **content** to **contentEnq1**.

3

3. Rename **contentEnq2** to **content**.
4. Close the folder.

From Enquiry 2 to Enquiry 1

1. On the tabletop, navigate to
C/Users/Table/Documents/Dictionary/Dictionary/bin/Debug/Scripts
2. Rename **content** to **contentEnq2**.
3. Rename **contentEnq1** to **content**.
4. Close the folder.

Configuring the Vote Screen

From Enquiry 1 to Enquiry 2

1. On the tabletop, navigate to
C/Users/Table/Documents/VoteScreen/VoteScreen/bin/Debug/Scripts
2. Rename **vsimages** to **vsimagesEnq1**.
3. Rename **vsimagesEnq2** to **vsimages**.
4. Close the folder.

From Enquiry 2 to Enquiry 1

1. On the tabletop, navigate to
C/Users/Table/Documents/VoteScreen/VoteScreen/bin/Debug/Scripts
2. Rename **vsimages** to **vsimagesEnq2**.

4

3. Rename **vsimagesEnq1** to **vsimages**.
4. Close the folder.
