

Epigenetics Matters: Public Lecture

 11/04/18  14:00-15:30  The Boiler House, King's Road, Newcastle University

Your DNA is not your destiny -
how epigenetics and environment shapes
your life.

Profs Mathers and Mann present an introduction into the science of epigenetics and explain how it affects life, health and characteristics of offspring. We further illuminate how epigenetics can be manipulated using nutrition.

This event is free but registration is required. Book your place here: <https://tinyurl.com/EpigeneticsMatters>
