

These files are the teaching materials for an International workshop on Molecular Evolution and Systematics, which we organized in Rio de Janeiro in March 2010. Please feel free to download any files for use in teaching or research.

We are happy to discuss running the course in other countries so if you are interested in acting as the local organisers for a future course please contact us (Martin Embley [martin.embley@ncl.ac.uk] or Mark Wilkinson [mw@bmnh.org]).

Martin Embley and Robert Hirt, Newcastle University

Mark Wilkinson and Peter Foster, The Natural History Museum, London.

March 2010
