Hexham Middle School

Launch Presentation

Introductions

- Northumbria Police Force

- Northumberland County Council

What is Cyber Prevent

- Stop young people from becoming involved in cyber dependent crime

- Cyber dependent crime –definition

- To help with this, we educate school pupils about the computer misuse act and what jobs they can work towards in the future using digital skills

What is the Computer Misuse Act?

- A law which makes certain activities illegal such as:

  - Hacking into systems

  - Misusing software

  - Stealing data

CMA Sections

- Sometimes, young people end up committing an offence under the CMA because they aren't aware of this act
- This is where we need your help!

The Project

Make a child friendly version of the CMA 1990

- Design your **own version** of the Computer Misuse Act 1990 so children the same age as you can learn about it.

- Come up with your **own examples** for each section. You can use examples that may talk about apps, websites or technology you use now.

- Each team member is to have a role; it is up to you as a team to decide who has what role.

- Keep track of your progress notes so you can explain at the end how you worked towards your final product. Don't worry if you make a mistake, or change your ideas throughout the project -this happens in real project planning in the outside world!

- Be **creative**!

Roles

Role	Description
Project Manager	Oversees the whole project and keeps track of progress notes
Creative Lead	In charge of how Adobe Spark is used
Researcher x2	In charge of getting ideas for the content
Presentation designer	Designing the final presentation
All	When the final product has been designed we would like you to all think about what careers you could go into that will help you to use your digital skills in a safe way. One career each with an explanation as to why someone might enjoy doing this as a job. You might not want to do the job but think about someone who is interested in technology and what you would advise them to do.

What we are looking for

Northumbria Police Content	Northumberland County Council Use of Adobe Spark
Can your product be understood by other children	How you used Adobe Spark during the project
Good descriptions and examples	Type of template used
How the roles were used when using Adobe Spark	How the roles were used when using Adobe Spark

Careers

- Personal experiences

- Want you to think about what career you could go into / what you might say to a young person who is interested in a career in tech

Cyber Showcase

- **1. Introduction**
  - Who's who and what their role was

- **2. What design was chosen for the final product?**
  - Presentation
  - Poster
  - Video

- **3. Why was this design chosen?**

- **4. Final product**
  - What descriptions were chosen and why?
  - What examples were chosen and why?

- **5. Careers**

  - When the final product has been designed we would like you to all think about what careers you could go into that will help you to use your digital skills in a safe way.
  - One career each with an explanation as to why someone might enjoy doing this as a job.
  - You might not want to do the job but think about someone who is interested in technology and what you would advise them to do.

There will be a prize at the end
for the winning group
