

**EPSRC-JSPS Core-to-Core Collaboration**  
International Network  
on  
Polyoxometalate Science for Advanced Functional Energy Materials

**Funding Application for Networking Activities**

*Funds are available to develop research interactions between participating Network institutions in the area of polyoxometalate chemistry for advanced energy materials.*

*Applications for funding must provide the following information. Expand the sections as necessary and submit completed form to Dr. R. J. Errington ([John.Errington@newcastle.ac.uk](mailto:John.Errington@newcastle.ac.uk)) and to the Project Support Co-ordinator, Justina Heslop ([Justina.Heslop@newcastle.ac.uk](mailto:Justina.Heslop@newcastle.ac.uk)).*

**(i) Description of the nature of the proposed networking activity with dates of activities**

**(ii) Details of the project participants involved (including non-UK project participants)**

**(iii) Details of proposed expenditure** (full breakdown of travel, accommodation and subsistence costs)

**(iv) Case for support.** Explain how the activities will contribute to specific project objectives and provide details of expected outcomes. *For postgraduate research visits, give details of the PhD project as well as the proposed work during the visit to demonstrate that it is not part of the PhD project.*

**Conditions**

Please sign below to indicate you have read and agreed to the following conditions for funding.

Within two weeks of the activity you must:

- Send information regarding activities (e.g. details of research visits, programme of any meetings with your presentation listed, attendee list, photos, suitable text for web pages and Twitter etc) to the Project Support Co-ordinator Justina Heslop ([Justina.Heslop@newcastle.ac.uk](mailto:Justina.Heslop@newcastle.ac.uk)).
- Send any outputs (e.g. presentations, papers, conference proceedings etc.) to Dr. R. J. Errington ([John.Errington@newcastle.ac.uk](mailto:John.Errington@newcastle.ac.uk)) and to the Project Support Co-ordinator.
- Ensure you include the EPSRC, JSPS and the Network logos on presentations and reports.
- Acknowledge the EPSRC grant number in any applicable publications (EP/S031170/1).
- Update Research Fish with any outcomes.
- Provide original receipts for all expenditure including, where appropriate, those for the use of any facilities for auditing purposes.

For postgraduate research visits, in order to comply with EPSRC funding regulations you must confirm that activities undertaken during the visit do not constitute part of the student's PhD studies.

Agreed.....
